

CETEC ERP

EXTENDED PROFILE

OVERVIEW

Cetec ERP is a cloud-based ERP software system built for small and mid-sized manufacturers. As full-suite ERP, Cetec ERP is designed to help SMB companies operate efficiently, grow effectively, and solve their most complex and difficult challenges. Cetec ERP is more production-focused in its development and feature set than traditional ERPs and offers an enterprise-caliber ERP platform at a significantly more approachable price point for SMB manufacturers.

The system is robust in functionality and reporting, while still being nimble and user-friendly as a web-native application. It gives real-time data and intuitive workflows to streamline business operations, and empower manufacturers to grow their business in a wide range of different manufacturing environments.
