

SYSPRO

EXTENDED PROFILE

syspro

OVERVIEW

Specializing in the manufacturing and distribution sectors, SYSPRO Enterprise Resource Planning software provides the solutions, processes, and tools to assist Manufacturers and Distributors to manage data and gain key business insights. The solution is scalable and can be deployed in the cloud, on-premise, or hybrid, and accessed via the web or windows applications, to provide customers with choice and flexibility.

KEY FEATURES

Key features of SYSPRO include centralized business intelligence solutions with ERP embedded analytics for faster decision making, depth of functionality in Manufacturing Operations Management (MOM), inventory, distribution, and procurement due to market specialization, self-service, supply chain extensibility and customization, and tailoring.

SYSPRO also supports out-of-the-box integrations and connectors, where customers have the ability to integrate technologies such as AI, ML, and IoT into their ERP system and extend the solution to connect to other systems.
