

YAVEON 365 - PROCESS MANUFACTURING ERP EXTENDED PROFILE

OVERVIEW

Yaveon 365 is a cloud-based ERP solution built on Microsoft Dynamics 365 Business Central, designed specifically for the needs of process-driven and regulated industries such as pharmaceuticals, biotechnology, chemicals, food, cosmetics, and medical devices.

The system combines robust ERP functionality with industry-focused extensions to deliver end-to-end visibility, compliance, and efficiency.

With Yaveon 365, companies benefit from comprehensive batch and lot management that enables complete traceability from goods receipt to final shipment, integrated quality management with automated inspection orders and approval workflows, and a compliance-ready framework including electronic signatures, audit trails, and support for GAMP 5 validation.

The solution also provides advanced recipe and production management with flexible order handling, detailed costing for margin and price calculations, and seamless integration capabilities through its universal data interface that connects ERP, CRM, webshops, and third-party systems.

As a modular and scalable platform, Yaveon 365 grows with business needs, offers cloud or on-premises deployment, and ensures companies can meet strict industry standards while streamlining operations. With hundreds of successful projects and a strong customer base, Yaveon 365 is a trusted choice for organizations seeking a powerful ERP tailored to regulated industries.
